

DO GOOD - IN A GOOD PLACE!

SUPPORT CHILDREN LIVING IN FOSTER HOMES WITH YOUR ACCOMMODATION OR ROOM RENT EXPENSES

For 9 years now Világszép Foundation is providing Individual Attention and Accepting Love to children living in foster care through camps, storytelling, mentor, career and crisis programmes, through an inclusive kindergarden and Létra Klub. Our camps are held at our centre in Paloznak, where every child can experience the feeling of calmness, safety, love and personal attention. **To broaden the financial ground on which Világszép Foundation is based it offers the Story Center for corporate events, team buildings and trainings of all kinds as a venue. By this we hope to be able to provide a safe point in the children's lives for as long as possible. Our centre could be the perfect choice for all companies, who want to step out of the customary structures of corporate events and inspire their employees through a unique venue.**

2 buildings with all together 4 training rooms, one common room (dining and recreational area), plus 3 terrasses, 1 hectare park with gazebo, a mini-amphitheatre, a lookout tower and a bird house providing the perfect surroundings for team buildings and/ or organizational development.

Lower building

In the lower building 2 training rooms and 2 guest rooms for 2+1 people can be found. On the first floor, in Training room 1, a panorama window opens up a seemingly endless view over Lake Balaton, which will give wing to your creativity, sense of freedom and the chance for blithely gatherings. A cobbled terrace in front of the building makes a great spot for outdoor activities. Two separated lavatories and a bathroom are also part of the building.

Upper building

Besides a huge dining and recreational area (equipped with Ping Pong table, foosball, board games) 2 training rooms (33sm and 36sm) can be found. There are 8 guest rooms in the lower building, which provide a total of 26 spaces to accommodate guests. There are 2 bathrooms and lavatories per store. Above and in front of the building spacious terraces are expanding.

Middle garden with stream

Upper garden

The rampant park-like garden is crossed by a little stream with banks on its shore, and also gives space to a pavilion and an enchanting goat couple. In our bird house our guests have the chance to get a look into the lives of various bird species. Although the venue gives space for retreat, the infrastructure in the immediate vicinity around our centre offers numerous recreational options (wine cellars, restaurants, beach, adventure park, hiking tracks).

ABOUT VILÁGSZÉP FOUNDATION

APPROXIMATELY 24.000 CHILDREN IN HUNGARY ARE CURRENTLY LIVING IN STATE CARE. THESE KIDS, WHO HAVE BEEN EXTRACTED FROM THEIR FAMILIES, BEGIN THEIR LIVES WITH A FUNDAMENTAL DISADVANTAGE. **WE ARE FOR THEM.** OUR AIM IS, THAT EACH AND EVERY ONE OF THEM GET TO EXPERIENCE INDIVIDUAL ATTENTION, ACCEPTING LOVE AND THAT THE WORLD IS FULL OF BEAUTY AND OPPORTUNITIES FOR THEM AS WELL.

For us it's important to remain present in the kids' lives and by that to be a secure point in their everyday lives full of insecurity and constant changes. We try to offer activities adjusted specifically to the children's ages, the situations they're in and their aims, our field of work by that is rather broad. Through our camps, story telling, mentor and career programs, our inclusive kindergarten and community space, Létra Klub, we're able to connect to children in state care from the youngest kindergarten age over teenagers up to young adults. Over and over again we're helping them to discover their inner "most beautiful Beautiful", of which we are deeply convinced it is present in everybody.

SUMMER CAMPS

The base for our summer camps is that every child gets individual attention, furthermore support matching its interests and age. The time spent together holds the opportunity to experience unconditional acceptance, trust and love, whilst developing their skills through experiences, collecting knowledge about their individual and their functioning within a group and their own boundaries. Through successes and positive reinforcement they can discover their inner resources, built on them they'll be able to find and keep their position in life more easily.

STORYTELLING

Our volunteers spend quality time with the children whilst telling them stories.

Storytelling is our bridge to the children and by visiting regularly we get the chance to become a secure point in their constantly changing lives. With open attention we try to smuggle cozy, joyful moments into the lives of the little and bigger ones living in the foster homes in Budapest and around Miskolc cooperating with us.

MENTOR PROGRAM

Children growing up in or just leaving the child protection service don't receive as much constant individual attention as they'd need. Our volunteer mentors accompany the children through regular meetings, common activities and just talks in the long-run on the kids' own ways.

CAREER PROGRAM

Our career program supports young adults living in or just exiting foster care in their way into the workforce. Our aim is to provide practical knowledge and emotional support to the youngsters, our corporate partners on the other hand we'd like to sensitise towards child protection in general. Furthermore, through constant contact we'd like to be able to find solutions together for possible occurring difficulties.

LÉTRA KLUB

In our colourful community space we offer inclusive, individual activities so little and older ones can spend quality time at ours. At Létra Klub we're working to help the children attending at our facility to become full of self confidence, who know themselves well and creative and free-spirited people. We believe that freedom and positive reinforcement can give wing to such abilities, of which we didn't even knew they were there.

PENDULA KINDERGARTEN

Open-minded, welcoming, creative workshop, where everybody can be part of our community in their own rhythm and whilst following their own way. At Pendula Kindergarten the Foundation is supporting the education of 12 children from state care, beginning at the smallest group up to the end of pre-school.

More information: www.pendulaovoda.hu

"The whole day you're hurrying, do your thing and sometimes you just don't realize how your soul gets dragged along after your body. And then you head out to tell stories and you're just exhausted and you don't really feel it... You get there, halt for a minute, your soul catches up with you, you arrive. You enter the door and then... well then... that's something different. Somebody hugs you and although you don't really know each other, you hug back. Somebody looks at you and you know, they do see you and you see them. "The storyteller is here", they say. You tell your story, they are with you, safe... There's no exhaustion left, no work, no hurrying, just love and moments which help to live."
